BIVON MOMANYI - SOFTWARE DEVELOPER

Nairobi, Kenya | +254769716880 | bivonmomanyi03@gmail.com | LinkedIn

Professional Summary

Results-driven Software Developer and IT professional with hands-on experience in full-stack web development, database management, web application lifecycle management, custom systems administration, and technical support. Demonstrated track record in architecting web platforms, integrating RESTful APIs, and implementing scalable enterprise and mobile software solutions. Enhanced APHRC's ICT Helpdesk platform, streamlining ticket management and automated workflows. Proficient in modern stacks including Next.js, React, PHP, Python, PostgreSQL, and MySQL. Adept at collaborating in agile environments using Git version control and providing robust technical systems support:

Technical Skills

- **Languages:** JavaScript (ES6+), Python, PHP, Java, C, C++, C#, HTML5, CSS3, SQL
- **Frameworks & Libraries:** Next.js, React, Node.js, Django, Laravel, Express.js
- **Databases & ORMs:** PostgreSQL, MySQL, Firebase, Prisma ORM
- **Web & Systems Administration:** Website Maintenance & Optimization, CMS Management, Digital Systems Administration
- **Tools & DevOps:** Git, GitHub, REST APIs, M-Pesa API Integration
- **IT Support & Infrastructure:** Systems Troubleshooting, Network Configuration (LAN/WAN), Hardware Diagnostics, Information Security Fundamentals

Key Projects

- **Helpdesk System:** Contributed to the development and enhancement of an ICT Helpdesk system at APHRC using **Next.js, PostgreSQL, and Prisma**, supporting ticket management, assignment workflows, notifications, and improved user experience.
- **E-Commerce Platform with Mobile Payments:** Developed a full-stack web application using **PHP**, **MySQL**, and **M-Pesa API**, enabling real-time online payment processing and database-driven inventory tracking.
- **E-Recruitment Portal:** Engineered a web-based portal using **Python** and **Django** to digitize and automate candidate application processes.
- **Android Car Rental Application:** Built a native mobile app using **Java** and **Firebase** for cloud-based user authentication and real-time reservation management.
- **Administrative Digital Platforms (CBC-UPRS & Online Clearance):** Custom-built web systems utilizing **PHP**, **MySQL**, **JavaScript**, and **CSS** to automate paperless institutional processes.

Professional Experience

Software Development Intern, African Population Health and Research Center (APHRC) Nairobi, Kenya July 2026 – Present

Contributing to the development, maintenance, and improvement of internal software systems and digital platforms while working collaboratively with a software development team.

- **ICT Helpdesk System:** Architected and enhanced an internal ICT Helpdesk platform using **Next.js**, **PostgreSQL**, and **Prisma ORM**, streamlining ticket management, automated assignments, and notification workflows.
- **Web Development:** Custom-built and managed WordPress websites, developing new features, optimizing media assets, and maintaining site functionality to ensure high performance and usability.
- **User & Technical Support:** Delivered direct end-user technical support, diagnosing application issues, troubleshooting system glitches, and resolving service requests to ensure smooth daily operations.
- **Web & Systems Maintenance:** Oversee full-lifecycle maintenance and performance optimization for web applications and CMS platforms, enhancing site security, media rendering, and operational load speed.
- **Version Control & Collaboration:** Leveraged **Git/GitHub** in team environments for structured branch management, code integration, and conflict resolution during feature releases.
- **Testing & Quality Assurance:** Diagnosed and resolved application bugs during development cycles, improving stability and system usability.

ICT support Cyber Caffe Kisii, Kenya Jan 2025 – May 2026

- **Systems Administration:** Managed daily IT operations, performing system updates, software installations, and hardware diagnostics for high-volume customer access points.
- **Network & Peripheral Setup:** Configured local internet connections, network printers, and peripheral devices to ensure 99%+ uptime for operational services.

IT Support Kisii County Government - Kisii, Kenya May 2023 – August 2023

- **Hardware & OS Support:** Diagnosed and repaired technical failures across enterprise desktops, laptops, and printing systems running Windows environments.
- **Network Diagnostics:** Assisted in monitoring local area networks (LAN) and resolved connectivity bottlenecks across municipal departments.
- **Technical Helpdesk:** Provided tier-1 and tier-2 end-user support, documenting incidents and escalating complex tickets to senior IT staff.

Education Background

- **Bachelor of Science Information Technology**, Kaimosi Friends University (2024)

Professional Certifications

- **Technical Support** – Google
- **Network Support and Security** – Cisco Networking Academy
- **Python Essentials 1** – Cisco Networking Academy
- **Cybersecurity** – Cisco Networking Academy
- **Website Strategy, Enhancement and Optimization** – APHRC Virtual Learning Academy
